

# Agribale®

by brithene

## *The innovative alternative to net wrap*

*new development*

- ▶ **Agribale** is a brand new wide film manufactured using innovative pre-oriented technology.
- ▶ **Agribale** replaces the netting on round bale silage. In addition to grass silage Agribale can be used for other crop applications such as maize and sugarbeet pulp.

The innovative alternative to net wrap

**AGRIBALE FILM OFFERS SIGNIFICANT BENEFITS:**

- ▶ **Tighter, denser bales => more stable bales => easier handling and storage**
- ▶ **Complete bale coverage => better air barrier => improved fermentation => better fodder quality**
- ▶ **Film and Film System => easy to open => easy to use in the mix wagon**
- ▶ **Smooth film surface => no enmeshed forage => no fodder losses**
- ▶ **Made of same material as standard bale wrap => easier to remove from bale => easier to recycle**
- ▶ **High quality forage easily transportable in bale format => easy and flexible feeding**

**AGRIBALE – FOR BETTER FORAGE QUALITY AND EASIER FEEDING AND HANDLING**

**Agribale** is supplied on cardboard cores and packed in a protective plastic sleeve.

**Agribale** is not UV stabilized and should be used in combination with **Polybale** stretch film.

**Agribale** can be recycled along with agricultural stretch film.

For an optimum result we advice to combine **Agribale** with 6 layers of **PolybalePro**.
